Spring Irrigation Maintenance

Mount Pleasant City Public Works Department is beginning spring maintenance on the irrigation system throughout the city limits. We are asking citizens to close their personal valves and check for leaks & repair any damage to irrigation lines on their property that may have occurred during the winter months. Please have your valves off by April 1st, 2018. Our goal is to have the system in full operation by April 16th, 2018. Individuals with questions regarding these efforts may be directed to City Hall at 462-2456. We appreciate your cooperation.

Mount Pleasant City, Utah

City Clean-up

APRIL 16TH – 30TH

We are using dumpsters sites this year like we did last year. We have two locations: 400 East & Main; and 400 West & 200 North. No tires, chemicals, or oil is allowed. Please separate your tree limbs from the rest of the trash, place tree limbs in designated area near dumpsters. The Dumpsters will be in those locations for two weeks. We will have them dumped as they become full. Thank you for helping to keep Mount Pleasant City a beautiful place to live. If you have any questions, please contact City Hall at 435-462-2456.

New Justice Court Judge

We are pleased to announce the appointment of Judge Mark Mciff to the Mount Pleasant City Justice Court.

Justin Atkinson is a long-time resident of Mount Pleasant and has had the privilege of serving the citizens of the wonderful community of Mount Pleasant for many years. He has served on the city council for the past seven-plus years and served 10 years on the planning and zoning committee prior to his time on the city council.

In the past several years that Atkinson has served on the city council, he says he has seen good things happen. Roads have been improved, infrastructure needs have been addressed, economic and community development has been on the incline, recreational options for citizens and those visiting have been created, just to name a few.

Justin will continue to work to “preserve the past and prepare for the future” and he pledges his efforts to do all he can to meet the constant need that a community like Mount Pleasant deserves and requires.
