**Keith Collier**

Has always taught his children that “It takes more than an address to be part of a community.” With Keith this is not just a good saying, it’s a way of life. Keith and his wife Beth have served for many years on the Hub City Days Rodeo committee. It’s a money generator for the city, and also our stores and restaurants. Keith sacrificed a great deal of time and effort leading a trove of volunteers to make the event happen.

Keith has stated that he would do anything he could to help our city flourish. His passion for making our city the most pleasant place to live is infectious.

**Dan Anderson**

Previously served as the Mount Pleasant City Power Superintendent for 28 years, where he had the responsibility to budget the department’s money, create and complete projects and maintain and improve the power system.

Dan plans to continue to maintain and upgrade the city power system, support family recreation programs, keep our parks clean and in good repair, sustain and support the rodeo, programs for our youth, maintain and improve roads and irrigation, encourage better ways to conserve our water supply and usage. He will also encourage events and business growth, which will help people find employment in our city. Dan’s experience helps him understand some of the problems the city faces, and it also helps in supporting the employees of the city.
