4. **Discussion on Celebrations**

Colleen Oltrogge discussed the YCC trip to the State Capital. She said it was an amazing experience this year. She said they were taken to several places in the capital building, where most people don't get to go.

Pioneer Day—She doesn't do much with this. She would if the Pioneer Day committee wanted her to.

Easter—YCC is in charge of this. She buys the candy and the YCC gets everything ready. She says this is an easy celebration, nothing too difficult.

--There was a small discussion on how to involve the older kids (12+) as well.

4th of July—Working to get parade sign-ups and consent form online. Coleen explained all the events she has on the 4th. She requested more help to free her up to take care of all the things she needs to do. She also asked about the carnival coming back. There was a small discussion about where to put the carnival because of the wear and tear on the softball/baseball diamonds. Every year there are sprinkler heads broken and water lines damaged. Several options were discussed, but no final decision was made.

5. **Personnel Compensation Schedule**

Three different compensation schedules were handed out and a small discussion ensued. The mayor requested that the council members look at it and come back with their feedback. It will be brought back to the next council meeting to vote on.

6. **Preliminary Engineering Report**

There was a small discussion on the different options that Robert Worley from Sunrise Engineering presented to the council in January. It was narrowed down to a couple options and will be brought to the next council meeting to vote on.
